HR*Mercel Randolph's letter:

He phoned Jim excitedly from Phila. during the Ray evidentiary hearing 10/74, representing that he had the most sensational evidence to give. He then flew down and hung around for two days, wasting much of our time and taxing our capabilities for diplomacy. He knows nothing. It was at least sick to represent that he had anything to say. If he is not sick his purposes included getting the cheapest kind of publicity for himself. HW 12/21/76
